Customer Reviews

Helped me navigate my travels in southwestern England. It was used in tandem with the GPS on the smartphone.

Was the best purchase we made before our trip to Wales! We used it every day! I would highly recommend this map before your trip to Wales.

The combination of colors, background vs details and fine print are not what I expected. Somewhat difficult to read especially while you stop at the rest stop.

You will thank yourself for buying this map to use along with your GPS.

Getting lost in Manchester, England several times in one day - we asked people for help showing our "new" map and were told it was out of date. Got some laughs at some places. We were very

disappointed.

map not localized enough and detailed enough for my needs

We flew British Air from the US to Egypt when we took a tour there. BA flies through London and we were able to get an extended free layover. We spent those days driving the countryside -- out to Stonehenge, Bath, up into Wales (Monmouth) and then visited the Bard's home. Having a paper map makes life so much easier -- even when you have a GPS (for planning, backup, etc.). We were not carrying a laptop on this trip (space/weight restrictions) so did not have use of online maps like Google.

It more than met my expectations
