Hall China (Schiffer Book For Collectors)

Synopsis

This is an expansive introduction to the popular ceramics produced by the prolific Hall China Company of East Liverpool, Ohio, beginning in 1903. Over 600 brilliant color photographs display these popular pottery wares, ranging from coffee pots and mixing bowls to refrigerator wares and teapots, in both solid color glazes and beautiful decorations including Autumn Leaf, Crocus, Silhouette, and many more. A history of the company, manufacturer's marks, an extensive bibliography, an index, and current market values are included in this fascinating study of one of America's most prolific pottery companies. This book is a must for every collector of twentieth century ceramics.

Customer Reviews

Jeffrey B. Snyder is an experienced author, editor, photographer, and public speaker. He specializes in the study of nineteenth and twentieth century ceramics.

Bought the book as a gift for my wife. While she is not a "professional" Hall china collector she is serious enough that ever time we go to a new city/town/state she wants to stop at an antique shop. This book is well organized and has quality photographs. The book as a gift was well received but not exactly what she was looking for. She wanted to see the full line of the Red Poppy line. While the book displays and discusses many pieces, it doesn't catalogue them in that way and to be fair I don't

think that is it's intent. The book presents many of the Hall lines, gives tips on who to shop, where to shop and gives help in identifying non-authentic pieces and gives advice on determining values. It's a great book and valued in my wife's collection but it just didn't cover all pieces of Red Poppy - but perhaps no book does.

Very well illustrated. Very helpful in identifying patterns. I suspect the prices are incorrect, so don't buy it for that purpose.

I was very pleased with the book except page 50 was torn in half and missing. It is fortunate that my collectibles were not listed on that particular page!

If your going to collect American China this is the book to read.

Very helpful and informational book! Really happy I got this book.

Great book for a great price.

Great reference!

Beautiful book! Great photographs! The information in this book is helpful and accurate. The research is thorough and charts are also helpful.
