I have always wanted to write and publish a book. When Kindle appeared I thought it would be the perfect vehicle to get my book out there. But I was intimidated and confused. is huge! Where would I even start? So I didn't even bother to start on my book. Well, this book changed all that! Thank you Nuno for sharing your honest advice and easy ways to not only write my book, but publish it in several formats and then take my knowledge and my life to the next level!! I started reading this book this morning and couldn't put it down. I know I'll be referring back to it often as I travel on this incredible journey that I thought would never be my reality. If you are truly ready to make your dreams of being a successful author happen - then this is the book you've been looking for!

For anyone wanting to write and self publish their first book, this could be the only instruction they will need. I found the book to be easy to understand in a step-by-step format. If you follow the instructions you will be able to write and publish your work easily as this book takes all the mystery out of self publishing. There are sections on the actual writing process, Kindle publishing along with instructions on how to self publish a paperback book. An excellent resource - I would recommend this book to anyone who is thinking of self publishing a book but not sure where to start.
