As a novice bird watcher, I have enjoyed using this guide. I have already spotted many birds shown in the guide. It fits in pocket or purse.

I see birds, in the guide, I didn't know we had here but I'll be watching for them!

Love it! I love that it is laminated too!

Very nice fold out laminated bird guide. Illustrated listing of birds in Alabama. Listed in four categories; Birds of Prey, Perching birds, Doves/woodpeckers, water and nearshore birds. The guide has a map of Alabama birding hotspots. Obviously it doesn't list as much information as a bird guide book would, but if you are just looking for basic identification then this will be perfect for you.

Love

As new backyard birders in Alabama, we think this is terrific. Easy to keep always handy, laminated so mostly waterproof and very sturdy. For us the only downside was that one entire side involved water/near water birds. HOWEVER, since we are ordering one for the car and one for the truck and we visit my parents who have a pond in their front yard, this 'con' will soon be a 'pro'. Best bang for the buck I've seen in a long time.

My six year old grandson carries this pocket pamphlet with him everytime he goes outside. He has found the name of several birds using this as a resource. It is very durable and user friendly. However there is not a lot of information on the birds...just pictures and names.

This was a gift..an as of photo shows.of good quality an price
