Customer Reviews

Great book for anyone who wants to communicate effectively.

This book was really good, but it was not the whole "bundle", which I had read that it was. I still had to buy the online codes I needed separately and so I returned this book to buy a cheaper, used version.

The item came earlier than expected. I was expecting a really used and partially damaged book and what I got looked practically new. Thanks and I think the material is quite interesting.

It did its purpose, but the Author likes to overstate their points a little too much. Some of the sections are a bit verbose, but they get the point across.

Thanks, this book is easy to understand and very informative. I recommend this book for students who want to learn to overcome stage fright in public speaking.

Good information. I still get nervous just thinking about public speaking.

Good book
