Customer Reviews

The Hidden guidebook series hot-peppers its pages with little arrows that point to a multitude of off-the-tourist-track sites. --This text refers to an out of print or unavailable edition of this title.

[...] One of my computer-side companions has been Hidden Pacific NW and now Hidden Washington. I've seen a lot of the state and know Eric Lucas knows Washington, so his book is a great reference when needed. What I really like is his "hidden" finds at different places. If you want a book that portrays a true picture of what you might find in Washington and is easy to use, Lucas's book fits the bill. I would recommend it for all visitors and newcomers to the state.
