What can we say :) Another super fun story by Geron. My kids have read nearly every book by Geronimo and my youngest loves the prehistoric series very much. She is a dinosaur fan and even though this series by Geronimo doesn't always stay true to the facts (many of his other books are full of true facts about each topic) she realizes that this one is a bit more sillier with some more fiction built in. They are quick and fun reads and get kids excited about reading !

I got these for my 8 yr old son and he LOVED them! they kept his interest and he was even bringing some of the Cave mice books he already read to school so his friends could read them.. when we

got into the car to go anywhere, he grabbed his cave mice book to read on the way instead of his electronics which please us so much! Great books keep their interest and there are so many of them!

A wonderful Grandson thoroughly enjoys. Just to see the excitement on his face when I give him one of these books, really is worth it! I have never seen him get this excited on Christmas or his Birthday. I will continue to purchase these books!

My granddaughter loves the different series of Geronimo Stilton. She loves to read them and collect them!

All of Geronimo Stilton's books have a simple story but how he put so much detail in it just wow! And the pictures are so colorful!

kids love these books

I love these cave mouse books. They are so cute, and funny. These books keep me entertained, and I know young kids will love them as well.
