# The Cottage

## **Synopsis**

A fresh start and a new life, that's exactly what Nadia Monroe needs when she moves to South Carolina. With plans for renovations dancing in her head, she looks forward to breathing life into her old cottage by the beach and most importantly, herself. Not used to being on her own, she sets out on a new chapter of her life hoping to find friends and happiness. Inspired by some of her favorite books, Nadia discovers adventures are just a wine bottle away, but it's the friendship forming in her neighbor, Laine Montgomery, that has Nadia grateful for the move. With a bit of good-natured Southern meddling from Laine's best friend, Susannah, could more than friendship be on the horizon between Nadia and Laine?

## **Customer Reviews**

I actually really enjoyed this book. It actually hit pretty close to home for me and I found myself with some watery eyes a couple times. My Mom had been diagnosed with early onset Alzheimer's disease and passed away this past December unexpectedly. It is so incredibly difficult to watch your loved go through this horrible disease and try to do whatever you can to take care of them as best

you can. Yes, you do miss out on some things during this time but I like the main character in this book wouldn't have done anything differently. This book is about more than that though and I found it really enjoyable to read. The relationship that develops between the two main characters was so sweet and a pleasure to read about. I too was a huge Nicholas Sparks fan and have seen all the movies at most of the books. I kind of skipped the last couple when I discovered the world of lesbian fiction. Anyways, it's a great read and I'm looking forward to Caroline's next book!

I really enjoyed this read and it's my first one from Caroline Jimenez. The book is about Nadia Monroe and how she buys an old in need of fixing cottage in South Carolina. She's a big Sparks fan (and honestly, I am too...just a sucker for romances and mainly HEA) so this was her way of living or start living a romantic dream and her life. BTW did you get that little irony or is it foreshadowing in my use of "in need of fixing" cottage cause yea it plays a subtle but big part in the story. Anyway, the book is really good. Jimenez does a great job moving the story along quickly and subtly and we are able to not only read but feel the emotion Nadia has for each character. I do wish we could have read about Gabi and her reconciling and maybe just a little more with Allen but I get that it may have slowed the story. It's definitely worth the read and I look forward to the next one. Plus it's a KU read!!

No review of mine could possibly do this book justice. Beautifully written love story. Laine and Nadia overcame obstacles of heart and of the body. Strong courageous women who loved each other. There may have been a few tears of sadness but there were even more tears of happiness. Caroline wrote probably the most moving love story I've read in ---- well, maybe ever! The words in this book truly touched my heart. Please do yourself a favor and read this book as soon as you can. You will be glad you did!

I truly enjoyed this book. I also liked how their romance was based on one's love of Nicholas Sparks books and movies, which I am a big fan of his movies. Though this was a great book, I wish they would have kissed much sooner and their first love scene to be more explicit, Instead it was rushed and cut short. What can I say, I love a great plot with hot sex scenes! I will continue to read more books from the author. Would love to see a continuation of Nadia and Laine's love story!

Amazing book, I absolutely adore Nicholas Sparks books and this was just as refreshing. I've always wished for romance lesfics growing up and this is definitely a good one I'd recommend it to

everyone. I don't always like rereading books but I will definitely be revisiting this one. Great job Caroline, I can't wait to see what else you come out with.

I enjoyed reading this first book by Caroline Jimenez. The writing was good, the characters and story were well developed, and there was a solid relationship built for Nadia and Laine. The secondary characters including Sin, Chase, and Moose were each unique and contributed toward a strong first publication. I will definitely read more works by this author.

It was really cute the way they referenced all those Nicholas sparks books. I had never heard of the author or read the books or watched the movies so I may have to at least check one out.

I enjoyed the book immensely. Although, it did take the ladies a long time for their first kiss. Too long! Interesting characters kept me riveted to the story. Learning about South Carolina and southern traditions brought me a greater respect for the south. I would recommend this book to my family and friends.
