Nine Ball: Confessions Of An Angst-Ridden Maniac Who Decided To Get Laid Or Die Trying

Synopsis

There are a few auto-biographical and biographical style books that have come out. The most famous is "The Game" by Neil Strauss. Then there is a semi-autobiography from Mystery (Erik von Markovik) in "The Pick up Artist" which includes some scenes from Mystery's life in an excerpted fashion. Finally, Myths and Masters of The Game describes the story of Project Rockstar 2009. Both of these are relatively authentic, but keep everything upbeat by missing out on some of the gory details and take narration liberties here and there to improve the storyline. "Nine Ball" is different in that it's extremely authentic and direct account of the worst of Jeffy's path to learn to get better with women. It includes all the gory details. Meet The Dark Side of the Pick Up Arts In one of his earlier seminars Jeffy delivered a lot of value to men who wanted to learn to get better with women by telling his darker side story of the low point his quest (that many considered a huge success) had led him to. This footage is included in the "Transformations" DVD from Real Social Dynamics. It was something that needed to be said out loud, because behind doors at the time, it was getting talked about. But the more senior dating coaches kept this rather negative view to themselves (note: To learn about other recounts of the dark side see Men who become obsessive about dating advice. Some of the lows Jeffy goes through are relatively self destructive, and when he gets to a point where he sees the hate that a lot of women he has met have towards him he hits an all time low. This is not unusual. It is a journey that has been repeated by many men, and for this reason the account can be invaluable reading to an open minded beginner - who wants to avoid the pitfalls of success.

Customer Reviews

Great story and I love the work Jeff does but I'm really confused by how poorly formatted this book was (I got the ebook). Many many times during the book I struggled reading it due to random spaces in the middle of words, combined words, and random blank pages. Hopefully this is corrected soon.

First three quarters of the book are great, but get a little bit repetitive imo. The back end of the book, however, was great. A great example of what self development can do for you.

incredible story, couldn't put it down finished it in 2 days

I read The Game(Neil Strauss), Tucker Max, all that 'type' of stuff when I was younger. Difference with Nine Ball is it seems more vulnerable, honest in showing a darker side of what can happen if you travel down this road. To me, this is the best book of its type.Chronicling Jeff's childhood and lack of success in his younger years to adulthood, and the journey and pain from there to becoming a professional dating coach.There aren't much tips on how to pick up girls in here, it's more of a narrative/autobiography. Jeff's youtube channel has plenty but you won't find much in here. An excellent read, I can't recommend this more.

What started out as some mental masturbation with a little bit of advice on pickup sprinkled in turned into a real examination of happiness, fulfillment, and what it means to be an American. Patriotic, with vulgarity occurring on Brobdingnagian proportions. An examination of the American dream and what it means to be a white, cis-gendered, male in today's increasingly tolerant world. It was a travel through time from nowhere to everywhere, with somewhere inbetween.It changed my life for the better or for the worse I may not ever know but it changed it nonetheless. As it is and goes forever and always.

Its pretty fun and interesting to hear about Jeff's story. Although I enjoyed it overall, i feel it felt more

like a random series of events, than an entire narrative. I guess thats kinda what it was. Good read, I recommend it.
