Griddlers Logic Puzzles: Extra Large (Volume 3)

Synopsis

Griddlers logic puzzles, also known as Picross or Nonograms, are picture logic puzzles in which cells in a grid have to be colored or left blank according to numbers given at the side of the grid to reveal a hidden picture. Some people compare Griddlers to Sudoku. However, the Griddlers puzzles always reveal a nice image as a result. This book consists of 91 Griddlers puzzles, each of them has at least on side bigger than 50 cells. It means the puzzles are really difficult. So if you are not griddlers expert please don't buy this book. The solutions of the puzzles appear at the end of the book.

Griddlers team is a leader of an online community dedicated to logic puzzle games. The Griddlers team creates variety of logic puzzles, from the well known Sudoku through several similar number logic puzzles like Kakuro, KenKen, Futoshiky, Skyscrapers, and Binary. Their best puzzles are Griddlers, also know as Nonograms or Paint by Numbers, with a special three directional variant named Triddlers.

Don't buy this book unless you have exceptionally good eyes. I can't do over half of the puzzles because the grid size is sooooo small. Some of them I can't even read with a magnifying glass. I just measured one of the puzzles with my husbands help and each individual square is 1/18 of an inch!! That's 1/18th not 1/8th. I have occasionally had to look at a number or two with the magnifying

glass before, no big deal. But this is ridiculous. Well, honestly I would still buy this book because there are several puzzles I can do and I've always been very happy with all of the other Griddlers magazines. I'm just so disappointed!!!!

I generally love griddlers logic puzzles and can't wait for their next one to come out - sadly this one is going to be difficult to do - several of the puzzles are going to need a magnifying glass to read the numbers - I have a 0.3mm pencil but I think it will be too big to draw the blocks. There are 10 blocks in 5/8 inch. - normally they blocks are about 10 per 1&1/4 inch.

It would help if you clarified that extra large meant ALL really big puzzles with very tiny squares and not as in large print for older eyes! Puzzles would be fine if I didn't have to do them while using a magnifying glass!

They have some great puzzles that I would love to be able to solve, but the grids are too small. They could use some better editing.

I'm having a great time

It's very good

I have purchased many many different griddlers books and this is the only one that has puzzles I can't complete because they are impossibly small

Great puzzles. Challenging but not unsolvable. Perfect gift for anyone that likes logic puzzles.
