An Inconvenient Book: Real Solutions To The World's Biggest Problems (Unabridged)

Synopsis

Now available in trade paperback, the #1 bestselling New York Times author Glenn Beck tackles some of our country's biggest problems in this funny, outrageous, and entertaining book. Glenn Beck believes that the reason why some of our biggest problems never seem to get fixed is simple: the solutions just aren't very convenient. And as the host of a nationally syndicated radio show and a prime-time television show on CNN Headline News, Glenn Beck doesn't care much about convenience; he cares about common sense. Take the issue of poverty, for example. Over the last forty years, America's poorest cities all had one simple thing in common, but politicians will never reveal what that is (or explain how easy it would be to change). Global warming is another issue that's rife with lies and distortion. How many times have we heard that carbon dioxide is responsible for huge natural disasters that have killed millions of people? The truth is, it's actually the other way around: as CO2 has increased, deaths from extreme weather have decreased. But that would never be shown in an Al Gore slide show. Combining honesty with a biting sense of humor, *An Inconvenient Book* contains hundreds of these "why have I never heard that before?" types of facts that will leave readers wondering how political correctness, special interests, and outright stupidity have gotten us so far away from the common sense solutions this country was built on. --This text refers to the Paperback edition.

Book Information

Audible Audio Edition

Listening Length: 6 hours and 29 minutes

Program Type: Audiobook

Publisher: Simon & Schuster Audio

Audible.com Release Date: November 13, 2007

ASIN: B000ZM8GLS

Best Sellers Rank: #81 in Books > Audible Audiobooks > Humor > Political Humor #351

in Books > Audible Audiobooks > Humor > Essays #768 in Books > Humor & Entertainment > Humor > Political

Customer Reviews

This is a good one by Glenn Beck....before he started going off the deep end.

This book is good for conservatives and fans of Glenn Beck, but this isn't all politics and border

security. Glenn talks about, in addition to the oil crisis and exit polls, things like how Hollywood is hurting birth rates because of bad movies, as well as the perks of old age. However, it gets four stars for minor language. Also, this is not a good book for left-wings, unless you enjoy getting ripped on by Beck. However, Conservative Republicans should get a laugh or two out of this book.

This book should not only be required reading by our elected representatives -- it should be required UNDERSTANDING. If they don't understand it then go back to their research and gather more data. Their constituents deserve it.

This man is a shill for the elite. He is bought and paid for and told exactly what he is and is not "allowed" to say. Book didn't convince me otherwise.

I've read bits and pieces and I love this guys view of these issues. I would read more of his books in the future. Received it quickly.

My Grandfather taught me "things are not always as they seem" and my Dad taught me to "think for yourself". I liked this book as it proves out (with facts) this very point! Great read!

was a gift

I am very pleased with my purchase.
