This book is amazing and a self-help work of genius. Mr. Horwitz is an extraordinary man who shares his very personal life struggle with obesity and related health issues (including cancer), and turns his miseries and life around by developing a healing plan for himself, leading him to a state of

self-love and happiness. His book is the result of his realization that one of his life missions is to share his story and transforming healing plan with others who have struggled with obesity, yo-yo dieting, and poor self-esteem. And the result is a masterpiece! The words on the pages of this book are the pure heart and soul of the author. Horwitz writes with a brutally honest passion that reaches out touching your heart, making you quickly recognize that you are not alone, and that someone truly understands and cares about you, and your struggles. I shed tears in grasping this understanding for myself. I realized that I was holding a true friend in my hands. In sharing his healing plan, Horwitz' words hold your hand, envelope you with a hug, and guide you to a state of hope and happiness through the use of intensely personal and beautifully powerful affirmations. After years of feeling hopeless and like a failure, I feel that I have been brought out of the darkness of existence and into the light of the living. Though this book is written for those of us who are obese or overweight, this book's inspiration and plan will help anyone with obstacles in their life that they wish to overcome. I hope Mr. Horwitz and his book get the attention and recognition they deserve -- this book is truly incredible and can help so many suffering with a myriad of life struggles. It has changed my life. Thank you Mr. Horwitz.

After reading this book I knew that the author was telling my story using words I could never write or speak. I started gaining weight when I was age 5. My parents took me to every doctor and I started my first diet when I was 5. I can still remember to this day how my father watched me eat. I have had several traumatic events in my life. At one time, I was seeing a psychologist, certified eating disorder, and a psychiatrist. I will never forget the first thing my psychologist said to me: Was I trying to kill myself? I was confused. Food had always been a friend, not an enemy. I tried every diet there was and when I lost weight, I rewarded myself with food. Through the help of my therapists, friends and family, and now this book, I realize that I matter! I am important! Saying the affirmations divulged in this book every morning and evening, ensures that I am positive with a positive feeling. I have now been able to find my voice. God bless you Maurice Horwitz.

I am a lifelong dieter who gained weight as a child and could never get it or keep it off. My self-esteem was in tatters by the time I was an adult. Every aspect of my life seemed to revolve around dieting. I read encouraging books, attended weight loss seminars, saw professionals, even in search of a means to make the encouragement I had heard from others stay with me, but somehow it never did. But I never gave up. When I discovered Mr. Horwitz' book, I expected nothing in particular. Instead, I received a gift like none other! I felt as if I was reading about a friend's struggle,

so much like my own. After reading the book and opening myself to its positive message, I have new faith in my own ability to overcome the past and its self-defeating patterns. Thank you, Mr. Horwitz, for sharing your story and its complexities with us. I can say honestly that I have been changed for the better by having read it.

Mr. Horwitz has written a powerful and far-reaching book. After being an obese child, I decided that food was the enemy and lost 80 lbs. at 14 years of age within a three-month period. Over my adulthood, I have prevented myself from regaining weight by regular purging after meals. I didn't understand that just because I was no longer obese that I had been frightfully changed by the experience of obesity. When I purchased *My Life As a Diet*, I intended to give it to an obese friend. Certainly I didn't need to read it -- I wasn't fat anymore! But I picked it up and started reading. I didn't expect to find myself there but I did. Mr. Horwitz shares his story with frankness and compassion. Just as important, he provides readers with a sure-fire way to beat the fat mentality--.(Or the low self-esteem mentality - or the insecure, fearful mentality that we, the formerly fat, have lived with all their lives.) I knew that something was out of whack with me for decades after losing weight but was unable to understand what it was...until now. The book was a wake-up call for me. I would recommend it without reservation, not only to obese people and formerly obese people, but to **ANYONE** who feels ready for a major improvement in outlook and self-esteem.

The affirmations in this book were extremely powerful! I feel the affirmations can be applied to any personal demon, not just those of never ending dieters. I enjoyed the personal stories that prefaced each affirmation section. I know this book will be a great resource for the many struggling with self-esteem and never ending dieting. I thoroughly enjoyed the book and know you will too!

This is not a diet book! Author Horwitz presents a simple, easy plan to transform my challenges into an opportunity to improve the quality of my life by being present to what is and changing the way I think. Reading this book and following the suggestions has quickly brought me to a greater awareness of my self and how to live a more focused, peaceful life. It works for me and it will work for you. In part a mini memoir that brings greater understanding of how to be happy while dealing with obesity, cancer and other life threatening diseases. I recommend the book for everyone... no matter what is happening in your life.
