# Famous Men Of The Renaissance & Reformation

## Synopsis

An unusual and thought-provoking collection of biographies that tell the story of the two great movements in European history that ushered in modern times. Many of the figures will be familiar (Da Vinci, Michelangelo, Luther) but there are some unusual and intriguing choices as well (Machiavelli, Cesare Borgia, and Michael Sattler, for example). The text covers the period in Western European history from 1300-1550, and also includes chapters on Giotto, Botticelli, Savonarola, D'AfÄrer, Erasmus, Wyclif, Hus, Calvin, Zwingli, Tyndale and Knox. Includes over 75 b&w images of the men, women and works of art that distinguish this period of history. 29 chapters, 192 pages.

I use this book with Simply Charlotte Mason history curriculum. It is a great resource for any history buff or a homeschoolers.

I can't wait to use this in my classroom to inspire my students. Great short reads about so many famous figures.

Good product that was sent and received as advertised.

I enjoyed the quick synopsis that this book gives on the different men of this time. We will be using it as a spine resource this fall.

Bought for the grandsons. But, when I read it and learned much about individuals I thought I was familiar with. A great read for any age. :)

A good resource for my classroom

Pedestrian. A series of high school level written essays on famous people of that period. Written by a teacher, I believe, and it is dumbed down for today's American high school students, one presumes. If you like USA Today style writing where one simply skims over the top of everything, then this is for you.

I was badly disappointed. It had a poor appreciation of the Renaissance isolated to a few individual choices. As a consequence I did not complete Reading the book. Few books I get from it was on have reached this low estimation of worthiness. Adrian Dunn Sydney, Australia
