Customer Reviews

When I moved to Louisville in 1996, I purchased a number of street maps. For a number of reasons, the EasyFinder was my favorite. 1- It's laminated for the most protection (tho I've never spilled anything on a map, knock on wood) 2- Spacing between each section allows it to be folded in any configuration desired to minimize footprint 3- All major streets are detailed with clear markings. It's the perfect map for most people visiting the city. My only complaint is that many smaller, residential neighborhood streets are not listed. For that, you'll need a much larger, detailed map. You can either pickup a paper Rand McNally map with most all streets here on or a booklet published by a smaller, local publisher at most local gas stations when you get to Louisville.
