Leo and Marlene Canter are nationally renowned for their work in the fields of education and parenting. Through their educational consulting firm, Canter and Associates, Inc., and through their Assertive Discipline program, they have shown thousands of educators and parents how to raise happy, responsible children. Their books have sold over 750,000 copies. The authors live in Los Angeles with their two children.

This book was recommended by my son's school. Reading the book over the summer, I can't wait to try some of the ideas. The book reads fast, is concise and is down-to-earth.

I bought this for my daughter as her daughter, my grand-daughter aged 6, is struggling at school with literacy and numeracy. Her concentration levels are poor. My daughter has only read a few chapters but is already using some of the tips and they have made a tremendous difference. Homework is definitely more peaceful these days. Some of the tips are just commonsense which I had previously suggested to my daughter, but it seems if it comes from someone unrelated it is much more useful and sensible advice! Thanks for a very helpful book. Twink.

A great informative book. Even referenced it to my son's teachers.

Basic, old, tried and true methods. I'm a retired teacher, just now experiencing homework from the other side with my grands. The Lee Canter method has been around for 30 years. This has not been updated, but it's a good place to start.

We got this book when our oldest was in grade school - he graduated this year and is doing well in college. This book was a lifesaver that we have shared with several other families throughout the years. If you are struggling with a kiddo that doesn't do their homework/turn in homework that is completed/write down assignments . . . this will definitely give you the tools to help them be SUCCESSFUL.

If your child hates homework and struggles with how to get it over with every day...this is the perfect book. I was able to turn my ten year old son around and now he does his homework without throwing a fit.

Great information.

Thank you for the quick delivery. Well written and I would recommend this book to all parents who are struggling at the kitchen table for way longer than they should.
