Synopsis

Draw, paint, sculpt the figure anytime and anywhere with this professional figure reference (Companion Disk sold separately). Praise for "Art Models" is an inspiration for students, professionals and every artist in between." -Charlene Collins Freeman "The BEST 'Live Model' book ever." -Pauline Adair "Art Models has provided the absolute best resource I have come across that comes as close to being in a live studio as you can achieve." -Samantha Youssef The best way to improve in figure art is to practice, which requires quality reference material that inspires you. That's what the Art Models series is all about. With nearly 200 photos of nude art models--both female and male--Art Models 10 will inspire students and professionals alike to practice and create finished works of art (which may be sold royalty free). For students, we provide a brief instructional exercise at the beginning of the book written by author and art teacher Butch Krieger that will have you improving right away using pose photos. The 100 distinct poses within the book were selected by a team of experienced art instructors to ensure they are genuinely useful for both students and professionals, with the inclusion of hands, feet, and faces that give close-up views of these notoriously tricky areas. Become a better artist with Art Models 10--novices can practice and experts can perfect. This book does not have the full 360-degree views of every pose. If you would like all the views of all the poses, please see the Companion Disk.

"Live Model Books" is an invaluable reference guide for artists to supplement their access to live models with a vast assortment of attitudes and movements. One finds LMB's corps of life models to be fit, physically well-defined in delivering energetic poses. This collection of full-color high-resolution photos of the nude human form enables meaningful work or practice even when a live model is not available--a valuable addition to any figure artist's library. New to Art Models 10 -- a tutorial by Butch Krieger gives artists a practical skills-training exercise which demonstrates the benefits of pose photos while teaching one approach to shading. Poses were selected by a team of art instructors to ensure they would be genuinely useful for student and professional artists alike.* Study the human form in the comfort of your own home and on your schedule.* Take all the time you need to try new techniques or experiment with new media and hone your skills.* Study Hands, Feet, and Faces with special close-up sections* Great value at less than the cost of one modeling session.* 40 models provide more variety than a life drawing class.* Sell your work royalty free (see copyright page for details)."The worth of pose photos is not at all limited to beginners. All of us need practice, no matter how experienced we might be. Without life-long rehearsal, the best of skills will eventually wane.
