Customer Reviews

The good news: All the great things said by everyone else about content. The Bad news? Very small, dense type which makes the book hard to read and even harder to simply browse.

Love this little book! It's packed full of information. Wish it had a few more pictures of attractions, but that is the only critical thing I can think of. Very organized and very thorough.

Excellent guidebook for sites and history. Didn't use it to find housing (I'm an Air BnB advocate).Very very little here on the outdoors and hiking.

able to use both for planning and when in the region. Good coverage and maps.

We found it confusing and hard to find things in it. Will have to review it more closely in the future.

Great travel book with current information.

Bought it as gift to my wife and she loves it..

Very helpful in planning our trip to Sweden. Highly recommend.
