This book annoying has the same ISBN code as the comprehensive. Did not realize this until 2/3rd of the way through the class...Do NOT order this book if you are completing a full class. ONLY has tutorials 1-8; it's supposed to have 1-12

Bought used and it looked pretty rough

If you are wanting to use this for a college class or anything of the sort DO NOT GET THIS BOOK!!!!!! This book is incomplete as it only has 8 of 12 tutorials so I had to go and individually rent the missing 4 chapters for another \$28!!!

I needed this book for a class. The video tutorials my teacher provides have been much more helpful than the book. It's structure is not intuitive and seems poorly organized. Every page is very busy with content.

Great for class!

Exactly what I needed for class and no problems1

Great product!

Its school...
