Books For Girls Age 9-12 - The Impossible Medallion (The Diary Of Janie Ray)

Synopsis

Do you believe in time travel? Yeah, I don't blame you - neither did I....Hi! My name is Janie Ray, and I'm eleven years old. When I first got this diary from my mom, I didn't think I'd have all that much to write about. I mean, let's face it - fifth grade isn't exactly the most exciting thing in the world. But then really strange things started happening. Like last week, my best friend Sheila and I were hanging out in our clubhouse after school, drinking lemonade and trying to figure out what to do about MTS (AKA Marcia the Snob, who literally thinks she's queen of the fifth grade and seems to specialize in making my life miserable), when we suddenly noticed a weird inscription on this old medallion I found when I was little. The crazy part is, it was written in a secret code Sheila and I made up for our clubhouse JUST THIS YEAR!! At first we figured someone was playing some kind of a joke on us, but that didn't really make sense. And then, before we even realized what was happening, we ended up in the forest with an exceedingly odd girl who kept insisting the year was 1739. Let's just say my life isn't so boring anymore. And that's an understatement. Join me as I explore the hidden mysteries of the medallion, while figuring out how to deal with MTS, my little brother RJ, and even my mom - who always looks nice and doesn't seem to remember how hard things can be when you're eleven!!!**Perfect summer reading!!!**

Customer Reviews

I love this book and I love Janie and her BFF Sheilas secret codes. I believe this book is for girls of all ages. I can't wait for the next book in the Janie Raes series. I hope you will have fun reading this book and support my opinion.P.S. I hate it when people leave rude comments on the author and the book. I know that this is your opinion and all, but you guys could be a little nicer and not cuss and stuff. I hope you know these reviews are read by children and young people.BTW I am just 11 and I am typing this.

To be honest, I downloaded this book because it was free and I liked the pink cover.I opened it on my kindle to see what was about, and I found myself standing next to the kitchen table for an hour reading. I didn't stop reading to take a seat. I finished the book quickly, it is a short story.Janie is an eleven-year-old girl that starts writing on a diary that her mom bought for her with the condition that she will use it, so she is writing down everything, every day of her normal life. At first this every-day stories are a bit boring, but then her adventures start when she and her best friend travel on time.It was, as I said a quick read, but it was funny and enjoyable, ideal for young kids.

This is one of those books that deserves four stars. I think I chose this rating because I didn't like the ending. When something like that happens at the end, it leaves the readers wondering what's gonna happen next. I think the next time you write a book, Lila Segal, that you should finish a book even if you have other books in the series. Some books are meant to have a questioning ending but your book is gonna leave every one wondering what happens next. I recommend this book to people who like mysteries or books with questioning endings. Overall it was a good book.

It was okay good for 5,6,7, and maybe 8 year olds WARNING : if you don't like cliff hangers and only aloud to read free books I don't recommend

This was a surprisingly good but short book. I expected more. It was very interesting. I liked this book, sort of. I didn't really get it. I think this is a really good book. I wouldn't read it again because it was kind of babyish. I feel as though this book wasn't as advanced as i thought it would be. It was

very short. That was like half a chapter!! But other than that the book wasn't that bad.

I really liked the book but it took me about 3 minutes! hope you make more books like this one Jackie

The book was awesome, exiting, mysterious, cool, sad, fantastic, and all sorts of other emotions and it was totally not what I expected. Oh I forgot the book is a quick read and on the last page it says TO BE CONTINUED...

I love this book so much and it is very fun and important in life to help others and to not lie to people.
