This is not only an excellent art book, it is also special because it covers one of the most unique shooters to ever be made. Wolfenstein New Oder is set in mostly 1960 in a world where the Nazis won World War 2. This gives the world an entirely different look and makes it its own little world for us to explore. The art book does an amazing job showing off prototype and final art, and also gives us a look at some unused pieces. No game deserves an art book more than Wolfenstein New Order, and this one is excellent.

the art in this book is simply stunning especially portraits of characters themselves everything is explained well with great care being taken in the 60's timeframe if you are a fan of this awesome game ... lol who isn't right get this 200 page art book you will look at it and the memories will come flooding back

Very detailed and interesting art book. I loved all the concept art and stories behind their decisions.

Wish more games did this!

I love this book another great book. Know I enjoy this book forever on my new fire 8. I love this one.

I love this book! After I beat the game few times and unlocked all achievements I wanted more. And I bought this book and did not regret. Discovered a lot of interesting stuff!

Great game art from an enduring universe.

They did a great job making fake Nazis just as terrifying and terrible as the real ones.

Amazing book! Totally recommended if you are a fan of this series! 5/5
