Osmotic And Ionic Regulation: Cells And Animals

Synopsis

In the 40 years since the classic review of osmotic and ionic regulation written by Potts and Parry, there has been astonishing growth in scientific productivity, a marked shift in the direction and taxonomic distribution of research, and amazing changes in the technology of scientific research. It is indicative of the growth of the subject that as time passes the number of authors needed to review the subject grows exponentially. The time is ripe for a new survey of the subject and Dr. Evans is to be congratulated on the expert crew that he has recruited." From the foreword by W.T.W. Potts *Osmotic and Ionic Regulation: Cells and Animals* not only fills a gap in the literature, but delineates the new approaches, outlooks, and findings that define how the field has changed. Providing the first comprehensive summary of the fundamentally important mechanisms of ionic and osmotic regulation in 40 years, it ties the new findings to the older work of Potts and Parry. This book, written by accepted leaders in this field dealing with the ecology to the molecular biology of the processes and the taxa, provides background information in a broad range of disciplines such as zoology, evolutionary biology, physiology, ichthyology, aquaculture, marine biology, entomology, herpetology, avian biology, human nephrology, conservation biology, and pharmacology.

Book Information

Hardcover: 606 pages

Publisher: CRC Press; 1 edition (November 18, 2008)

Language: English

ISBN-10: 0849380308

ISBN-13: 978-0849380303

Product Dimensions: 1.2 x 7.2 x 10.2 inches

Shipping Weight: 2.7 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #1,691,794 in Books (See Top 100 in Books) #109 in Books > Engineering & Transportation > Engineering > Chemical > Unit Operations & Transport Phenomena #656

Customer Reviews

University of Florida, Gainesville, USA

A very good book and explain the osmoregulatory system in detail. I like it very much!
