50 Ways To Create Great Relationships: How To Stop Taking And Start Giving

Synopsis

In relationships, there are two kinds of people: reactors and creators. If you want stronger personal and professional connections-the keys to a happy, successful life-you need to stop responding to other people's shortcomings and start forming the relationships you want for yourself. In *50 Ways to Create Great Relationships*, bestselling author and relationship guru Steve Chandler offers more of the warm, witty, practical advice he's famous for-proven tips, strategies, and insights that can help you build and maintain loyal, meaningful relationships. You'll learn how to shift your energy from taking to giving, how to use innovation and imagination, how to be a creative listener instead of a passive listener, and much more. Expanded from the audio-only *35 Ways to Create Great Relationships*, *50 Ways* will open the door to new opportunities for loyalty, friendship, and support in your personal life and the workplace.

Audio is a great format for lists, especially when they're coupled with the ideas of a thoughtful expert. In this case, the author of *100 WAYS TO MOTIVATE YOURSELF* and *REINVENTING YOURSELF* tells us how to turn relationship intentions into actions. The principles here are clear enough--taking responsibility for oneself, giving not receiving, looking for others' needs and problems--but Chandler's gift is spelling out action steps that have just enough context and rationale to make them attractive and digestible. The slow pace and deep resonance of his voice make it

easy to absorb the best part of his message: Be an activist in your relationships, instead of waiting for problems, and you'll gain everything you want in your connections with others. T.W. This book is a must! read....Mr.Steve Chandler is a God send.It's like having a conversation with your closet dearest friend...I enjoyed every chapter! and his insights on life and relationships with others and with self are profound yet simple to understand and put into effect right away in your life.I wonder if he was ever on Oprah!...if not he should be because soooo many more people need to hear/read his words/books...also powerful reads...his other books..."100 ways to motivate yourself" and "reinventing Yourself".....But I tell you this! book alone is worth getting and chapter "25"...(climb your Ladder)!....is worth! getting the book for alone...Mr. Chandler if you ever see this review....I'd just like to say...thankyou....you have helped me see myself! and my life! in a way that has made me a better person for all I come in contact with...again, thank you and God Bless you always. Thankful from, Brooklyn N.Y. (Smile)

Book of love, a guide for all

This stuff works. Chandler writes and teaches from the heart. This information can be used to improve every area of your life in which you relate with others.

I thought I was ordering the book and ended up with the CD's instead. Good mistake, it gave me something to listen to during my hour commute to work each morning. It's clear that we create the life & relationships we want. Coercing and manipulating people to do what you want them to do and be what you want them to be doesn't work. It's difficult enough trying to change the things that irritate me about myself, wonder why I ever thought it was a good idea to try to change other people?

Huge fan of Mr. Chandler's work. This is my third purchase of his and it does not disappoint.

Read this one! You will learn if you open your mind and you are ready to implement some of Steve's suggestions. I like the way the book is organized into 2-3 page suggestions. Easy to read.

Love this guy! I have purchased 6 of his books on CD and learn something new from each and every one of them!
