# The Dune Buggy Handbook: The A-Z Of VW-based Buggies Since 1964 - New Edition

## Synopsis

Prepare for a whole cult of the dune buggy! Get to know buggies from their earliest beginnings as crude off-road vehicles in the 1920s, to the explosion of fiberglass body and VW-based fun cars that became the cult transport of teenagers everywhere in the 1960s and 1970s. With histories, production details, and identification tips for over 70 US and UK buggies, the book will help identify the many marques that have been produced over the years. Filled with period photographs, archive material, and amazing contemporary photography, the book is a visual feast from a bygone era.

Good book with a lot of fiberglass kits

Fantastic reference book. Every car enthusiast ought to have a copy of this for their library. I enjoy perusing through it every couple of years just for nostalgia's sake.

Bruce Meyers and the invention of the fiberglass dune buggy rates with the greatest contributions to the auto world. His vision and skills are not equaled anywhere else in the auto industry.

**GREAT ITEM**

It was for my husband who is an enthusiast, so knows his stuff he loves it says it's very informative and enabled him to continue with his project.

Great book! Amazing collection of buggies, many more than you can imagine.

Interesting book. Sadly it covers only USA and UK production.

A total waste of Money unless you are looking for a catalog of Dune Buggies...
