Introduction To Fire Protection

Synopsis

Now in a striking four-color format, Introduction To Fire Protection, 4E reflects the latest FESHE outlines and NFPA fire codes and ordinances as it provides all the necessary tools for individuals seeking a career in the fire service. Written by a widely respected firefighter instructor and authority, this comprehensive resource emphasizes the vital skills needed by successful firefighters. It includes up-to-the-minute coverage of incident effectiveness, customer service, physical fitness, training, and fire prevention. It also covers such cutting-edge issues as homeland security, goal setting, life safety initiatives, recent laws affecting firefighters, fire fighter emergency decision making, and other developments straight from the field.

Robert W. Klinoff is a nationally-certified Incident Commander and Safety Officer, a California Certified Chief Officer, a Master Instructor, and a National Fire Academy Executive Fire Officer. A 35-year fire service veteran, he also is a retired Chief Deputy Fire Chief with the Kern County Fire Department. Klinoff teaches online and classroom courses in the areas of command, management, and safety in both structural and wildland firefighting. As an instructor for the state of California, he teaches Company Officer and Chief Officer level courses. He also serves as an adjunct faculty for the National Fire Academy, teaching Infection Control for Emergency Response Personnel, Managing Company Tactical Operations, and Chemistry of Hazardous Materials. Under the National Interagency Incident Qualifications System, he is certified as a Safety Officer, Division Supervisor,

and Strike Team/Task Force Leader. In addition, Klinoff served as a Safety Officer on California Interagency Management Team 3, which received the Award for Excellence from the U.S. Secretary of Agriculture for their response efforts to the Pentagon incident on Sept. 11, 2001. Klinoff's background also includes experience as a firefighter, an ambulance driver, and a firefighter with the U.S. Forest Service,. He holds an associate of science degree in Fire Science from Columbia College and a bachelor's degree in Occupational Studies-Vocational Arts from California State University Long Beach. He is a graduate of the Executive Fire Officer Program at the National Fire Academy.

I had to get this book for my online Fire Protection class. I was able to rent the book for a much better price. The book was a lot of help. An easy read and helps understand to find answers that you need to do for homework. I can honestly say if not for this book, I would have failed the class. That is how much the book is. So if you need to get this book then get it from here! Especially if possible to get it for rent!

I enjoyed reading the text, they wrote it well. However, the Index and Glossary weren't great, and lots of things I tried to find were not there, and had to be found by page-flipping (aghh!). Not usually the case, in my experience. Also, waaayyy too many chapter review questions. Yikes. It was a decent overview of the fire service, though. I found it interesting.

it come just on time :) every happy

Overall dry material & very hard to follow & find reference material. Book was required for a course I was taking. I would not recommend this book unless you have too .

Needed this book for my Fire Tech class and it was 160\$ in the school book store! This was a great deal! Excellent buy! Great quality

Great condition. just as expected for used paper back. minimal wear and highlights

a very informative book

easy to follow book
