Kidpower Safety Comics: People Safety Skills For Children Ages 3-10

Synopsis

Even if your kids are not big yet, they have big powers. Mouth Closed Power. Stop Power. Walk Away Power. From “The Trash Can For Hurting Words” to “The Keep Telling Until You Get Help Story,” this practical tool for teaching safety helps answer the question, “How do I teach kids to be safe with people while not scaring them?” Entertaining cartoons and engaging social stories make it easy for adults to provide crucial knowledge and skills so children can learn to be safe around strangers and people they know. The author, Irene van der Zande, is the founder of a global nonprofit that has protected over three million children, teens, and adults from bullying, abuse, and other forms of violence through greater awareness, action, and skills. Effective, empowering, and fun, *Kidpower Safety Comics* (Ages 3 to 10) is recommended by police officers, parents, and teachers.

Irene van der Zande is an internationally-recommended personal safety and child development expert who has directly taught thousands of people of all ages and abilities how to take charge of their emotional and physical safety and how to develop positive relationships that enrich their lives. Irene is the founder and executive director of Kidpower Teenpower Fullpower International, a global

nonprofit that has protected over 3 million children, teens, and adults from bullying, abuse, harassment, assault, kidnapping, and other violence through greater awareness, action, and skills. The inspiration for starting Kidpower happened in 1985, when, in a public place with people standing all around, Irene protected a group of eight young children, including her own two, from a man who was threatening to kidnap them. Searches for answers to questions raised by this frightening experience led Irene to collaborate with educators, mental health professionals, law enforcement officials, martial artists, health care providers, and other parents to establish Kidpower in 1989. Since then, Irene has led the development of personal safety programs that are effective, empowering, and fun - and that build confidence. Kidpower's Positive Practice Teaching Method (TM) coaches students so that they are successful in rehearsing how to handle difficult - and dangerous - problems with people in situations that are relevant to their lives. Irene is an inspiring speaker, a dedicated leader, and an author whose writing is filled with humor, memorable stories, and practical advice. Her many books include 1,2, 3 ... The Toddler Years; The Kidpower Book for Caring Adults: Personal Safety, Self-Protection, Confidence, and Advocacy for Young People; Bullying: What Adults Need to Know and Do to Keep Kids Safe; the Relationship Safety Handbook for Teens and Adults; One Strong Move: Cartoon Illustrated Self-Defense Lessons; Earliest Teachable Moment: Personal Safety for Babies, Toddlers, and Preschoolers; the Kidpower Safety Comics, the Kidpower Youth Safety Comics, and the Fullpower Safety Comics series; and training manuals for educators. Currently, she is working on two book projects, Face Bullying With Confidence: How to Create Cultures of Respect and Safety for All Ages and Stages of Life and Doing Right by Our Kids: Protecting Child Safety at All Levels of Society. Kidpower Teenpower Fullpower International is a global nonprofit leader dedicated to providing effective and empowering child protection, positive communication, and personal safety skills for all ages and abilities. Great tool for my kids. Very important for safety, and also useful basic skills for interpersonal relationships and managing one's own emotions (e.g. de-escalation instead of lashing out). I wish more kids had these books to better learn this stuff from an early age.

I liked the messages, but the artwork was not my favorite. Probably won't read it again just for that.

Wish I could get the separate books again. Too small for a class setting

Good concept. Hard to interest an smaller child.

Cute little book on safety.

Great resource! I've found these safety comics very helpful, because it can be difficult to remember so many great safety skills, scenarios and how to coach and practice with my kids, especially when they're first introduced. These books remind me of the safety skills, provide scenarios that I can then expand on or add to depending on what safety challenges my kids have, while engaging them and providing practice so that they're more likely to use their power in the safety situations. In addition, they provide the room for great conversation starters in a non-obtrusive, natural way. I've found that this is not just a book to read, this is a book to discuss and practice with to really get it's full benefit.
