Synopsis

-----SPECIAL LIMITED TIME OFFER-----Enjoy a live, private one-on-one conversation with the master of human behavior himself. Only a few slots available! First come, first serve.*****This book contains specific, practical, and proven, psychological techniques that you can use to know a person's thoughts and feelings at anytime--often within minutes. Because the techniques can be applied instantly to any person in just about any situation, Dr. Lieberman has demonstrated their ease and accuracy on hundreds of television and radio programs. In a special report for FOX News, host Jeff Rosin declared, "It's simply amazing! I was with him and he was never wrong . . . not even once. I even learned how to do it and that's saying something." In fact, Dr. Lieberman has gone "head-to-head" on live television, with skilled polygraph examiners and scored just as well every time. You Can Read Anyone shows step-by-step exactly how to tell what someone is thinking and feeling in real-life situations. And when the stakes are high negotiations, interrogations, questions of abuse, theft, or fraud-- knowing who is out for you, and who is out to get you (or a loved one) can save you time, money, energy, and heartache. The New York Times put it best. In a feature article they simply said, "Don't lie to David Lieberman." And now you too, can learn the most important psychological tools governing human behavior and do more than just put the odds in your favor. Set up the game so that you can't lose. A peak at what you'll learn:THE ULTIMATE BLUFF BUSTER: How would you like to know if the guy sitting across the poker table from you really has a full house or just a pair of deuces? Or if your top executive is serious about quitting if he doesn't get a raise? Find out if your opponent is feeling good about his chances or just putting up a good front dead giveaway a poker player is bluffing /sure fire sign good hand, even pros give themselves away IS THIS PERSON HIDING ANYTHING? Don't get the wool pulled over your eyes! The next time you have a "sneaking" suspicion, that someone may be "up" to something, casually find out if anyone- kids, coworker, spouse, or friend--is keeping something from you!S HE INTERESTED OR ARE YOU WASTING YOUR TIME? If you want to find out if your date likes you or not; if your co-worker is really interested in helping you with your project; or if your prospect is interested in your product, learn how to know, every time.WHOSE SIDE IS SHE REALLY ON? Is she out for you, or to get you? If you think that someone may be sabotaging your efforts, when she appears to be cooperating, find out whose side anyone is on, and fast. EMOTIONAL PROFILE: Learn the signs of emotional instability and potential for violence. From a blind date to the baby-sitter to a coworker, know what to look for, and what questions to ask, in order to protect you

and your loved ones. David J. Lieberman, Ph.D., is an award-winning author and internationally recognized leader in the fields of human behavior and interpersonal relationships. Techniques based on his six books, which have been translated into twenty languages and include two New York Times bestsellers, are used by the FBI, The Department of the Navy, Fortune 500 companies, and by governments, corporations, and mental health professionals in more than twenty-five countries. Dr. Lieberman whose work has been featured in publications around the world has also appeared as a guest expert on more than two hundred programs such as: The Today Show, Fox News (Fox & Friends, The O'Reilly Factor), CNN, NPR, BBC, The Montel Williams Show, and The View.

Customer Reviews

Information in this book is really good, in this audiobook. But as audiobooks go this is incredibly boring to listen to. You're literally listening to someone read off of paper. He reads fast. His examples are unmemorable. And. He gives one quick example for each point and then quickly

moves onto the next point. Again the information is really good but it's incredibly hard to focus on an audiobook that is mother told, quickly read, with poor samples and no stories to highlight The points he's trying to make.

This book outlines some really good techniques for telling for a person is lying, withholding information or determining a persons true level of interest. It goes beyond mere body language and in fact doesn't even cover those theories. It describes specific scenarios and explains the way you can apply these techniques. If you'd like to discover if a person is really interested in a job position for instance. You first gauge their level of confidence and then by way of testing figure out if that person has more than a minimal level of interest. If they are really interested then they will become stressed when they see their chances for getting what they want are diminished. That makes sense though of course those reactions can be imitated by someone intending to mislead. This book is good for employers or anyone who has to interact with persons whose true motivations are not easily determined. I have several books on body language and although those theories often hold true and are observable and repeatable this book is different.

Even if you can't picture yourself in the situations he describes you walk away with an awareness of human nature; what liars say/do...etc. It's one book you'll reread and gain something every time you pick it up. Not a generic 'feel good' book but exactly how it's described. Try it.

Pick it up off and on. Has good points on reading people. I am somewhat intuitive so this book intrigued me.

insightful

It sounds better than it is, but teaches you a whole lot. Very true facts and to the point of practicality.

Still just in the beginning. Looks very good indeed. Looks like a Great book to have in one's library. Seems to be a very welcome addition to my library.

Mr. Lieberman is an expert in his field of work and knows what he is talking about. I have read and enjoyed several of his books and I never tire of the applicable wisdom and common sense in which Mr. Lieberman explains these principles. He is knowledgeable in his writings and these are principles

that can easily be learned and used for your benefit.
