# Backcountry Adventures: Utah- The Ultimate Guide To The Utah Backcountry For Anyone With A Sport Utility Vehicle

## Synopsis

Navigates 3,721 miles of backcountry trails throughout the state. See ghost towns, old mines, old Pony Express stations, old railroads and stage lines along the 175 off-road trails. Directions include GPS coordinates and all trails are rated for difficulty, mileage, driving time, remoteness and more. Descriptions highlight places to camp, hike, mountain bike, fish, and sightsee. Histories recount the days of the Wild West.

## Book Information

Paperback: 576 pages

Publisher: Swagman Publishing (May 1, 2002)

Language: English

ISBN-13: 978-1930193123

Product Dimensions: 10.9 x 8.5 x 1.1 inches

Shipping Weight: 3.6 pounds

Average Customer Review: 4.1 out of 5 stars 6 customer reviews

Best Sellers Rank: #624,092 in Books (See Top 100 in Books) #7 in [Books > Travel > United States > Utah > General](#) #970 in [Books > Travel > United States > West > Mountain](#) #3111 in [Books > Sports & Outdoors > Nature Travel > Adventure](#)

## Customer Reviews

...If you have a desire to use your SUV for something exciting, this is mandatory reading. -- Truck Trend; February 2001 Every detail, from planning a trip to learning the history of your destination, is covered by the authors with experience! -- Moab Times-Independent; April 2003 You have to see these books to appreciate them... Books covering several areas are available. Don't miss this one! -- Trucking Times & SUV News; October, 2002

These books are a very useful resource. We off-road explore a lot and consider these a requirement. Even though they are older now - and you should get current maps and info before heading out on your own - the information in these books is extremely valuable.

Not the fault of the item, but one must be careful when selecting a resource like this as to the publishing date. This was published in 2002. Conditions and even the locations of the trails themselves change too quickly for this guide to be reliable. We had some bad experiences after

planning our adventures using this guide trusting the information to be accurate. Once a resource has proven unreliable it's value is greatly diminished.

The whole series of Back Country Adventures is well written, very accurate and extremely valuable to any off-road adventurer. I wouldn't leave home without one.

I've used this book as a guide to Utah's back roads for five years and simply would not have gotten along without it. Enough said - buy it!

As said by another reviewer make sure you update the information in this guide. In 15 years you can expect to find some changes to the directions in some areas, like Nine Mile Canyon which is now paved much of the way. Otherwise this is a great resource and well done, I just wish it was updated. I am now reluctant to buy other states Back-country Adventures books which are old.

This book is outstanding. It has been well used. It gives very detailed information for trails in Arizona. Almost impossible to get lost. It includes GPS waypoints for all trails. Definitely recommend!
