Smithsonian National Air And Space Museum Photographic Card Deck: 100 Treasures From The World's Largest Collection Of Air And Spacecraft

Synopsis

Created in partnership with the world-renowned Smithsonian National Air and Space Museum, this beautifully packaged, informative card deck captures, in words and stunning photographs, 100 of the museum's most important artifacts. The NASM is the world's largest, most-visited collection of historical aircraft and spacecraft, and commemorate major milestones in flight and space exploration. The 100 treasures in this deck, hand-selected by the curators, include the Spirit of St. Louis, flown by Charles Lindbergh on the first non-stop transatlantic flight; Chuck Yeager's Bell X-1, in which he broke the sound barrier; Buzz Aldrin's space suit, worn during the Apollo 11 mission, and the Space Shuttle Discovery, which flew 39 missions and spent 365 days in space. Each card includes a photograph of the object on the front and a 200-word description plus key data on the back.

Book Information

Customer Reviews

Smithsonian Institution is the most visited museum complex in the world, with more than 30 million annual visitors.

Was disappointed with the set. It didn't have a Folger Tri plane, and very few Space Ships. NO Gemini, only one Mercury and Apollo Capsule photos. I know it's a museum and may not have all the items I would like to see, but there were more DRONES than Spaceships. Like I said I was

disappointed with these cards. Oh they're hugh.

Got this item for my grandson who loves the Air and Space Museum. He took lots of pictures while he was there. Unfortunately his cell phone was stolen on the train ride back to the car. :(I'm sure this is going to make his day a little brighter when he sees some of the same pics with a bit of information about each thing. Arrived on time and was packaged well.

Cards are excellent informative teaching aids, the one complaint I have is that the cards are not laminated.

Great
