Synopsis

Choose This not That for Ulcers. This book provides comprehensive and actionable nutrition guidelines for how to reduce your risk, prevent and combat Ulcers (Peptic Ulcer) and its various symptoms. If you rather tackle health issues and risks through proper nutrition and lifestyle changes as opposed to prescription drugs and other typical medical treatments, then this book is for you.Â Â Here are the highlights and what makes this publication unique and different from your other options:

- A look-up table for over 800 different types of food and their suitability for Ulcers
- Health issues often come our way in groups of two or more. Those with Ulcers are likely to suffer from multiple health issues and symptoms. - ACTIONABLE suggestions for what is good, what is bad, and what is neutral for your condition(s). We single out specific food items, and give you an ordered list of helpful and harmful foods within a food group.
- Suggestions on appropriate life style choices, alternative therapies and herbal remedies, when such options are promising and available to you.
- All the material and suggestions presented in this book are based on the content licensed from Personal Remedies, LLC. Customer Reviews

"Proper nutrition and diet play such a critical role in our health and well-being. A great majority of health issues that I see in my patients could have been prevented through nutrition, exercise and better life style choices." Choose This Not That series of books and apps make it easy for everyone to improve their health by following nutrition suggestions that are specific to their personal situation." Morad M. Tehrani, MD Internal Medicine and Anesthesiology; Marshall, MI "The Choose This Not That series of books and apps provide dietary recommendations focused on common chronic health problems. They are easy to understand and thus easy to implement into daily life. Most doctors would find it difficult to discuss dietary recommendations at the level of detail found in the series. They should serve as a valuable complement in helping people manage chronic illnesses through dietary and lifestyle modifications." Andrew S. Lenhardt, M.D. Lahey Clinic Hamilton, MA "Proper nutrition and other alternative treatments show great promise in preventing and treating many of the illnesses that we deal with every day. I encourage all my patients to follow appropriate nutrition and research other options for themselves. The Choose This Not That series are an excellent step towards improving people's knowledge in this area." Shahin Tabatabaei, MD Mass General Hospital; Harvard Medical School
