Synopsis

The purpose of this course is to enable nurses to accurately assess and treat venous disease and venous ulcers and to provide patient and family education for preventive care and lifestyle changes. In addition, members of the public may use this course to enhance their personal knowledge of the subject matter presented.Upon completion of this course, you should be able to:1. Identify the different components of the venous system, and explain the pathophysiology of venous insufficiency.2. Discuss the epidemiology of venous disease.3. Outline the signs and symptoms of venous disease.4. Cite the various diagnostic tests used to identify and classify venous disease and ulcers.5. Evaluate the role of compression therapy and surgical interventions in treating venous disease and venous ulcers.6. Review the importance of patient education in preventing the reoccurrence of venous ulcers.This 5-hour continuing education course is available for download for professional development; if continuing education credit is desired, please see instructions included in eBook.
