# DIY Energy & Money Saving Solutions Best Practices Volume 1 Landscape Hedge (Simple DIY Money Saving Green Solutions)

## Synopsis

A common sense approach to saving money and surrounding your house with nature. This eBook contains a simple DIY (Do-it-Yourself) project you can complete in a weekend or two at a cost of \$100-\$200 worth of supplies. Completing this project yourself will also save thousands of dollars compared to hiring a landscaper. This quick guide can end up saving you around 20% a month in electricity (or more) during summer months, add protection to your house from wind and storms, increase the curb appeal of your home, provide privacy, and give you bragging rights about actually being green and not just talking about it. I began noticing results from this project in the first month and hit a peak savings by the end of the first year.
