Customer Reviews

Don't judge a book by its' cover! the plans inside are very plain and simple.....blah!

I rated 4 stars because this book was expensive for the limited amount of builds. Having stated that, I bought the book anyway because I have bought most of his other books. The attention to detail and accurate and detailed instructions and pictures are what I like most and why I think its worth the price.

I found all the structures interesting! The fountains where hard but the blueprints were interesting.Over all it was a great book.

If you're looking for a great Minecraft guide with multiple builds, this is one of the top I have seen. The directions are detailed and clear, and the builds have a refined look to them. Highly recommended!

This book helped me make a few epic sculptures in my survival world and in my creative world thanks PS: Make more books they rock!!!!!!

I built all of the buildings in this book on a super flat creative world. I plan to buy the rest of your books too

It's alright. It would be better with more structures. Other wise it's fine. Overall I rate this 3 stars. Bye.

This book really inspired me, and gave me lots of ideas and plans for my minecraft world. I would recommend it to all minecraft lovers.
